EASY BORDURA

Metal lawn edgings, to plant

ME

Metal lawn edgings, to plant, available in 3 versions. To delimit two spaces.

Benefits

Create a unique and functional design in your garden with our galvanized steel edging. Ideal for elegantly separating two different areas, such as the lawn from the flower bed. Installation is quick and easy thanks to the integrated base. All you need are a few taps with a mallet to secure them to the ground. You can also easily join them together to cover longer distances or bend them to follow the curve of a path. Made from hot-dip galvanized steel, they offer exceptional weather resistance and durability, ensuring years of trouble-free use. Enjoy a well-defined and aesthetically pleasing garden with minimal effort.
